

Rechargeable Desk Lamp SR-TD803 User Manual

Product Description:

The desk lamp uses high-quality LED lamp beads, professional optical structure, and natural light mixing algorithm to present a uniform and consistent lighting experience.

The LED desk lamp has a simple 2-stage folding design, and uses high-quality aluminum lamp arms and lamp poles. It is strong and durable and can rotate the lamp pole and lamp arm at a large angle; the lamp head uses high-brightness LED lamp beads, and the high-frequency drive effectively prevents flicker and no blue light.

Basic parameters

Product model:	SR-TD803
Control mode:	touch control
Color temperature range:	6500K
Type-C input:	5V/1A
Working temperature:	-20-+80℃
Luminous flux:	840 lumens (30*28)
Service life:	about 100,000 hours
Rated power:	6W (30 x 0.2W/LED module)
Battery capacity:	4000mAh
Full charge:	can be used continuously for more than 10 hours

Function introduction:

1 touch button switch, 3 levels of brightness cycle switching, the first time you press the touch switch, the first level: turn on the light, high brightness, 100% brightness. The second time you touch the switch, switch to the second level: medium brightness, 50% brightness, the third time you press the touch switch, switch to the third level: low brightness, 10% brightness, the fourth time you press the touch switch, the desk lamp turns off.

When the battery is out of power, the desk lamp will flash 10 times and then shut down. If you press the touch switch to turn on the light, the desk lamp will still flash 10 times and shut down, prompting the user to charge the desk lamp as soon as possible because the battery is exhausted. The desk lamp flashes: on and off, repeat 10 times and then shut down.

Lithium battery charging indicator description:

The desk lamp charging status indicator is located in the power socket behind the desk lamp. After plugging in the USB power supply, the desk lamp starts to charge. The red light is on when the lithium battery desk lamp is charging, and the green light is on when the battery is full. After a full charge, the desk lamp battery can be used continuously for more than 10 hours, which can generally solve the problem of power outages at night.

Packing list:

1. Touch desk lamp: 1 piece
2. USB adapter: 1 piece, 5V/1.2A
3. Power cord: 5 feet long USB power cord
4. Instruction manual: 1 piece

Troubleshooting:

1. The desk lamp does not turn on. The touch switch cannot turn on. The battery may be dead. Please charge the desk lamp. Look at the USB port position. The red light indicates that it is charging, and the green light indicates that the desk lamp battery is fully charged.
2. The light flickers or shakes after the desk lamp is turned on. Please replace the USB adapter and charge the desk lamp.
3. The touch switch of the desk lamp does not work. Make sure there is no metal around the touch button and try again.
4. The lamp head or lamp arm of the desk lamp is loose and cannot be fixed at an angle or stand normally. Please use a cross screwdriver to tighten the screws at the joint of the lamp arm to troubleshoot the problem.

If you try multiple methods and cannot solve the problem, please contact the seller after-sales service. Please rest assured that the seller will give a satisfactory solution.
